

JOIN AS AN ASSOCIATE MEMBER

As Belize's leading Intermediary business organization, the value of the chamber lies in its ability to build meaningful business networks, to inform and educate our members so that they build better organizations, and to champion the causes that provide for a stable and development centered private enterprise eco-system.

When our members thrive, Belize thrives.

Our commitment to what we call the "Triple C" philosophy simply; to capacitate, to connect and to champion, focuses our activities and underpins our service offerings going forward. Whether you decide to join us as an Associate member or as a member of the President's circle, your investment will allow you to engage the triple C philosophy to the extent you decide is necessary and conducive to the growth and development of your organization.

As an associate member your businesses/organization is recognized as a part of the Chamber family but with this selection you've opted for a narrow scope of services. The Associate Member package is valued at \$250 and is available to organizations that may not be in a position to make a full fledged commitment to the Chamber.

How Associate Members engage the “Triple C” Philosophy

To Capacitate

“Knowing how to” and doing it well is what drives success in business. Being an Associate Member entitles your business/organization to invitations to Trainings and Workshops which feature “Issue” Experts, as well as company specific trainings, upon request. In addition, you gain access to Chamber Publications which keeps you up to date on issues that impact your business in areas such as international business, trade and finance. Member Certification and Chamber Card discounts are also benefits of this package.

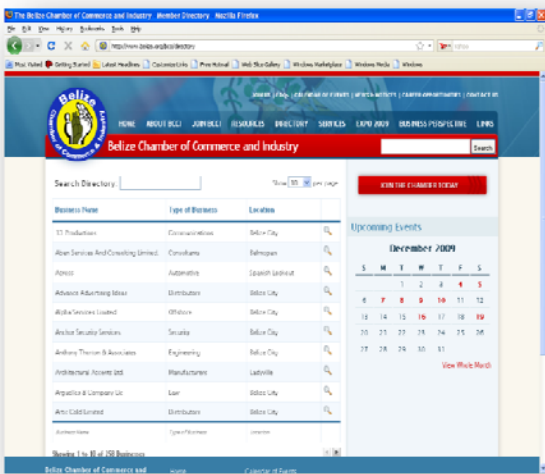

To Champion

As the leading business advocacy organization, the Chamber champions the causes of its membership and at the Associate level, you gain access to white papers, research and other position papers, enabling you to make more informed and strategic decisions for your business/organization.

If you are interested in being able to participate in policy leadership positions or gain the full benefit of the Chamber’s advocacy apparatus, you are invited to upgrade your package.

To Connect

As the local and regional marketplace becomes more competitive, there is an increasing demand for integrative approaches and business partnerships. As such, building connections which are meaningful to the development of your business becomes a priority. The Chamber offers the space to make these connections. At the Associate member level, organizations benefit from a free

listing in our online Membership Directory and are offered opportunities for Networking and Information Exchanges but do not enjoy member discounts when applied to these events. Associate Members also get invitations to match making events like EXPO and External Trade Missions. Also available are links and general

advertising on the widely visited BCCI website and the opportunity to showcase your products on the Chamber's Market Place Belize webmall. This is an invaluable tool that allows you to take your products/service global, without ever leaving Belize.
