CARICHAM

Dear Members:

On behalf of the Chamber of Commerce of Cuba, I would like to extend my warmest greetings to you and your business community.

I am pleased of inviting you to the XVII edition of Expocaribe 2022 to be held in the city of Santiago de Cuba from June 23 to 26 of this year, whose call and general tentative program are attached.

Santiago de Cuba is the second most important city in Cuba in terms of economic development and population. It is characterized by being bathed by the waters of the eastern Caribbean, being the cradle of a large number of Cuban musical genres such as son, bolero and traditional trova, as well as having an eclectic style where multiple architectural styles coincide.

Its economy is rich in mining resources such as iron and copper, it has large agricultural plantations and it is strengthened through the development of its industry. It is also one of the most important tourist sites in the country.

The international and commercial fair Expocaribe is held biannually, a space where foreign visitors have the opportunity to learn about all the benefits offered by the city, the exportable potential of the business spectrum of the eastern part of the country and its demands to accelerate its trade and industry.

Thanking you for your attention, we send you our best regards.

Antonio L. Carricarte Corona
