Tuesday, September 28th, 2021

Launch of the Belize Tax Service's Integrated Revenue Information System (IRIS)

- For Immediate Release-

The Belize Chamber of Commerce and Industry expresses its sincerest congratulations to the Belize Tax Service and the Government of Belize for the launch of the IRIS (Integrated Revenue Information System). The introduction of this system furthers the efforts towards improving the ease of doing business in Belize, through the facilitation of tax services via online platforms.

The BCCI recognizes that the implementation of this system is significant progress in the response to our long-standing calls on behalf of the private sector for greater e-governance infrastructure in Belize. The BCCI firmly believes that similar initiatives in other sectors of government can provide for greater efficiency, predictability, and reliability in government and the services it provides the Belizean people.

This development is significant in terms of its potential impact on the economy and as always, the BCCI remains ready to collaborate and partner with the government in tax reform and digitization measures that lead to greater benefits for the Belizean public and the country's private sector.

- End -
